

Thank You

For supporting individuals living in Ohio Adult Care Facilities during the COVID-19 Pandemic

The National Alliance on Mental Illness of Ohio and the Ohio Adult Care Facilities Association want to thank individual and community donors for their generosity during the COVID-19 pandemic by providing more than **\$350,000** used to purchase critical supplies for severely mentally disabled Ohioans living in group homes around the state.

You made life better for those individuals and, more importantly, you saved lives.

Your generosity allowed us to buy thermometers, sanitizer, soap, masks, gloves, toilet paper and other much-needed supplies for thousands of Ohio residents.
